Toilet System/Vacuum System

Coral Princess, as all modern cruise ships, is equipped with an EVAC toilet system that uses the vacuum pump principle. The system is very reliable, but the pipe work is much smaller than those ashore and is sensitive to foreign objects and large amounts of toilet paper. In order to avoid blockages and subsequent inconvenience to guests, please place any foreign objects in the waste bins and sanitary bags provided.

Public Health Reminder

To help maintain a healthy environment, please wash your hands frequently and thoroughly with soap for at least 20 seconds, and rinse them well. We strongly recommend that you follow this procedure each time you use the restroom, after coughing or sneezing and before eating, drinking or smoking. Avoid touching your mouth. We also encourage you to use your private toilet facilities and not the public toilet unless absolutely necessary.

The legal drinking age of 21 is observed onboard. Photo ID may be required.

Time Change

Ship's clocks will be set one hour forward at 02:00am between Friday night, 20th December and Saturday morning, 21st December.

Princess New Cruiser Tips

Here's a few tips on getting around the ship:

- Back of the ship is known as the "AFT", front is "Forward", and the middle is "Midship".
- When facing forward, the left side of the ship is known as the "Port" side and the right is known as the "Starboard" side.
- Staterooms on the Port side are even numbers and those on the Starboard side are odd numbers.
- All elevators onboard with the exception of the the midship elevators face forward. When you exit the elevator, you're facing forward.
- Interactive maps are available on both the Princess Application and the Portal screens, which you can use for getting around the ship.
